World
Citizen's
Assemblies
in all the big
cities of the
world

Let us live in our cosmopolitan century!!! Instead of dividing and tearing ourselves apart, rather than waging wars and seeking to dominate, let us share our knowledge, our wealth, the Citizen Territories are an alternative in the face of the unilateral United Nations, let us help them flourish!!!

May each city become a metropolis of diplomacy and a place for the OLYMPIC GAMES of fundamental rights and of their worldwide implementation.

May the world cities become the flowers of cosmopolitanism.
